VIRO

Who Are We?

Viro is a design-build-furnish luxury modular home company delivering architecturally beautiful, fully finished living spaces in just 3 to 6 months.

From secluded nature retreats to boutique micro-resorts, we deliver turnkey homes that are ready to live in from day one.

Who Are We?

Design Driven

Architecture, interiors and furnishing under one unified vision.

Built Smarter

Precision-engineered steel frame construction for speed and durability.

Deliver Complete

From structure to sofa – everything finished, ready, seamless

Precision Steel Fabrication: The Foundation of Strength

Powered by Light Gauge Steel Frame, we deliver move-in ready spaces beautiful, durable and fast. LGSF is a modern construction material that offers strength and durability, making it a preferred choice for many builders.

Your home begins with LGSF, expertly fabricated in a controlled environment.

Why LGS is a smarter choice?

- Lightweight
 - Accurate to the millimeter
 - Strong, termite-resistant, and durable
 - Consistent quality, less material waste / Cost efficient
- Design versatility
- Resistant to mold and rot
 - Aluminum powder coated: corrosion resistant
 - Fire-resistant
 - 100% recyclable

The result: A solid foundation you can trust.

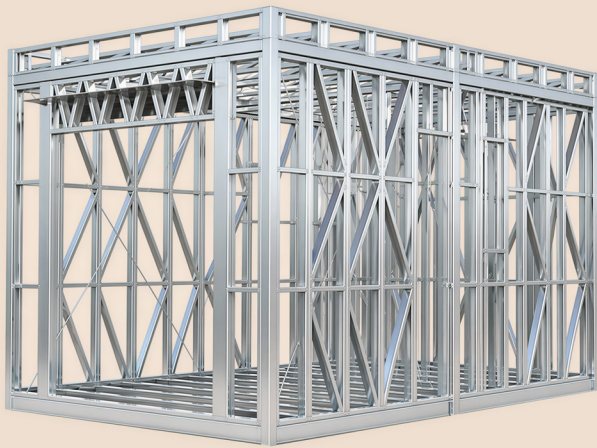

Precision Steel Fabrication: The Foundation of Strength

Each component is assembled into a robust structural system-walls, floors, and roof.

- Engineered for strength and stability
- Assembled in a controlled environment
- Quality-checked at every stage
- Insulated Walls (Low Density Rock Wool)
- Roofing:
 - Powder coated steel with insulation (standard)
 - Aluminum Zinc Coated Sandwich Panel with EPS (high-end)

The result: A home built to last.
